SAFETY PRECAUTIONS

Please read all instructions before attempting to unpack, install or operate this equipment and before connecting the power supply.

Please keep the following in mind as you unpack and install this equipment:

- Always follow basic safety precautions to reduce the risk of fire, electrical shock and injury to persons.
- To prevent fire or shock hazard, do not expose the unit to rain, moisture or install this product near water.
- Never spill liquid of any kind on or into this product.
- Never push an object of any kind into this product through any openings or empty slots in the unit, as you may damage parts inside the unit.
- Do not attach the power supply cabling to building surfaces.
- Use only the supplied power supply unit (PSU). Do not use the PSU if it is damaged.
- Do not allow anything to rest on the power cabling or allow any weight to be placed upon it or any person walk on it.
- To protect the unit from overheating, do not block any vents or openings in the unit housing that provide ventilation and allow for sufficient space for air to circulate around the unit.

1. INTRODUCTION

This is a compact yet versatile 4K UHD HDMI and PC/HD to HDMI Scaler. It accepts a wide range of resolutions from 480i up to 1080p/WUXGA for PC/HD and up to 4K@60Hz (4:4:4) for HDMI with the ability to scale the output to a selectable resolution up to 4K@60Hz (4:4:4) with simultaneous de-embedded, digital optical and analog audio output. 3-D motion adaptive de-interlacing and frame rate conversion is supported as well.

Integrated EDID management options allow for control over the way connected sources detect the unit. Also included is an auto source detection and switching feature allowing the unit to switch automatically to the most recently connected source, or to switch to the alternate source if the current one becomes disconnected.

This unit has a comprehensive OSD menu that provides the user with easy access to all settings. An integrated hot-key design makes for rapid access to common functions such as input selection and audio volume. This is an ideal device to integrate previously incompatible sources and displays or to provide a flexible auto-detecting input point for your boardroom meeting presenter's devices.

2. APPLICATIONS

- Home Theater with 4K@60Hz HDMI media player and VGA home PC with output to a 4K@60Hz TV
- Boardroom presenter connection point with auto-switching to new presenters and output to a large 4K display
- Lecture Hall, Showroom or Classroom signal display
- Displaying analog PC/HD contents on an HDMI display with audio

3. PACKAGE CONTENTS

- 1×HDMI/VGA to HDMI Scaler
- 1×5V/2.6A Power Adaptor
- 1×Operation Manual

4. SYSTEM REQUIREMENTS

- HDMI or VGA source equipment such as media players, video game consoles, set-top boxes, PCs or laptops
- HDMI receiving equipment such as HDTVs, monitors or audio amplifiers
- The use of "Premium High Speed HDMI" cables is highly recommended

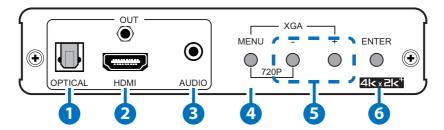

5. FEATURES

- HDMI 2.0 with 4K@60Hz (4:2:0 and 4:4:4) support, DVI 1.0 compliant
- HDCP 2.2 compliant
- Supports PC input resolutions from VGA~WUXGA and HD input resolutions from 480i~1080p@60Hz
- Supports HDMI input resolutions from 480i~4K@60Hz (4:4:4, 8-bit)
- Supports HDMI output resolutions from 640×480@60Hz up to 4096×2160@60Hz (4:4:4, 8-bit)
- Analog YUV input is supported with the use of a 15-pin to 3-RCA adapter
- 50/60Hz frame rate conversion
- 3-D motion adaptive de-interlacing and 3:2/2:2 pull-down detection and recovery
- Can automatically detect and output the preferred resolution and refresh rate reported by the EDID of the connected display (NATIVE output mode)
- EDID management options including multiple pre-defined EDIDs and EDID pass-through
- Comprehensive output picture adjustments (contrast, brightness, hue, saturation, sharpness, RGB (color tone) level and aspect ratio size)
- Supports LPCM 2.0 digital/analog audio input and LPCM 2.0 digital/ analog output. The audio source is selected via the OSD and output simultaneously over the HDMI, optical and phone jack connections
- Supports firmware updates via USB

6. OPERATION CONTROLS AND FUNCTIONS

6.1 Front Panel

- 1 OPTICAL OUT: Connect to powered speakers or an amplifier for digital audio output using an appropriate optical cable. Supports LPCM 2.0 audio only. Bitstream formats will be muted.
- 2 HDMI OUT: Connect to HDMI TVs, monitors or amplifiers for digital video and audio output.

Note: When outputting 4K@60Hz HDMI signals, a compatible 4K@60Hz display is required. The use of "Premium High Speed HDMI" cables is highly recommended.

- 3 AUDIO OUT: Connect to powered speakers or an amplifier for stereo analog audio output. Supports LPCM 2.0 audio only. Bitstream formats will be muted.
- MENU: Press to enter the OSD menu, or to back out from menu items.

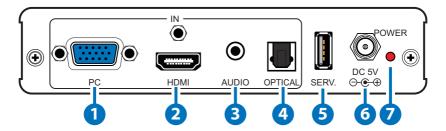

Note: Pressing "MENU" and "+" together will reset the output resolution to XGA (1024x768@60Hz). Pressing "Menu" and "-" together will reset the output resolution to 720p@60Hz.

- 5 -/+: Press to move up and down or adjust selections within menus. When not in the OSD press "-" to adjust the analog audio output volume (with on screen level indicator). Press "+" to activate the Auto Adjust function for VGA sources.
- **6 ENTER:** Press to confirm a selection or to go deeper into a menu item within the OSD. When not in the OSD this button switches between the 2 inputs.

Note: Pressing "ENTER", "+" and "-" together will perform a factory reset on the unit.

6.2 Rear Panel

- 1 PC IN: Connect to VGA source equipment such as a PC or laptop. YUV sources, such as DVD players, are also supported with the use of a 15-pin to 3-RCA adapter.
- **2 HDMI IN:** Connect to HDMI source equipment such as a media player, game console or set-top box. DVI sources are also supported with the use of an HDMI to DVI adapter.
 - Note: When outputting 4K@60Hz HDMI signals, a compatible 4K@60Hz display is required. The use of "Premium High Speed HDMI" cables is highly recommended.
- **3 AUDIO IN:** Connect to the stereo analog output of a device such as a CD player or PC.
- 4 OPTICAL IN: Connect to the optical audio output of a device such as a media player or game console using an appropriate optical cable.
- **5 SERVICE:** This slot is reserved for firmware update use only.
- 6 DC 5V: Plug the 5V DC power adapter into the unit and connect it to an AC wall outlet for power.
- **7 POWER LED:** This LED will illuminate to indicate the unit is on and receiving power.

Note:

- When outputting a 4K resolution with the same refresh rate as the 4K source (or when bypass mode is enabled) the OSD items marked with an asterisk (*) will be disabled.
- When a new output resolution is selected the output will immediately change and you will be asked to confirm that you can view the new resolution by pressing "Enter". If "Enter" is not pressed within 30 seconds the output will return to the previous resolution automatically.

8. SPECIFICATIONS

8.1 Technical Specifications

Video Bandwidth 600MHz/18Gbps

Input Ports 1×HDMI, 1×VGA [15-pin D-sub], 1×Optical

Audio, 1×3.5mm Audio

Output Ports 1×HDMI, 1×Optical Audio, 1×3.5mm Audio

Supported Resolutions 408i@60Hz - 4K@60Hz (4:4:4, 8-bit)

VGA@60Hz - WUXGA@60Hz (RB)

Cable Length 10 m (1080p@60Hz, 12-bit)

5m (4K@60Hz, 4:4:4, 8-bit)

Power Supply 5V/2.6A DC (US/EU standards, CE/FCC/UL

certified)

ESD Protection Human Body Model: ±8KV (Air Discharge),

±4KV (Contact Discharge)

Dimensions 145mm×30mm×192mm (W×H×D)

[Case Only]

145mm×30mm×201.2mm (W×H×D)

[All Inclusive]

Weight 578g

Chassis Material Aluminum

Silkscreen Color Black

Operating Temperature $0^{\circ}\text{C} - 40^{\circ}\text{C}/32^{\circ}\text{F} - 104^{\circ}\text{F}$

Storage Temperature $-20^{\circ}\text{C} - 60^{\circ}\text{C}/-4^{\circ}\text{F} - 140^{\circ}\text{F}$

Relative Humidity 20 - 90% RH (No-condensing)

Power Consumption 8.47W
